

Seamless Integration Maximum Reliability

axl Carrier Board

The axl Carrier Board is purpose-built for the Cube ecosystem, delivering a reliable interface for power, communication, and peripheral management in UAVs. Compact and lightweight, it brings professional-grade connectivity to advanced drone builds.

Key Features

Dual Redundant Power Inputs
for reliable operation

Motor PWM Distribution & Servo
Outputs for flexible control

Multiple Connectivity Options:
GPS, CAN, I2C, Serial, USB and
SBC Connectors

Optimized Design: Compact,
lightweight, and robust

Applications

Multicopter Drones

Rovers

Fixed-wing aircraft

VTOL platforms

**Additional
components
are available
on request**

About axldrone

axldrone is a leader in innovative drone solutions, offering purpose-built drones, powerful components, and ground control software. With over a decade of R&D and global project execution experience, we provide end-to-end drone solutions for professional and industrial uses.
