

Dependable Energy Mission After Mission

axl everfly

axl everfly 12000mAh 6S LiPo battery is engineered to deliver uncompromising performance for high-end drones, RC vehicles, robotics, etc. With a perfect balance of energy density, durability, and lightweight construction, it ensures maximum runtime, consistent power delivery, and exceptional reliability under demanding conditions.

Key Features

Lightweight Design	Designed for applications where every gram counts, delivering more power with less weight.
High Power Density	Advanced LiPo technology offers an outstanding energy-to-weight ratio for superior efficiency.
Compact Yet Capable	Space-efficient form factor for seamless integration into compact power systems.
Reliable & Secure Connections	Equipped with XT90S main and JST-XH balance connectors for safe, low-resistance energy transfer.
Built for Endurance	Premium-grade cells ensure durability, cycle after cycle, without compromising performance.

Technical Specifications

Specifications	Details
Capacity	12,000 mAh
Voltage	22.2 V (6S)
Discharge Rate	20C
Configuration	6S1P
Connector Type	XT90S and JST-XH
Dimensions (L×W×H)	175 mm × 75 mm × 50 mm
Weight	1440 g

About axldrone

axldrone is a leader in innovative drone solutions, offering purpose-built drones, powerful components, and ground control software. With over a decade of R&D and global project execution experience, we provide end-to-end drone solutions for professional and industrial uses.
