

**Endurance-focused.  
Performance-ready.**

## axl everfly

axl everfly 35000mAh 12S LiPo battery is engineered to deliver uncompromising performance for high-performance industrial drones, VTOL aircrafts, RC vehicles, and Robotics. With a perfect balance of energy density, durability, and lightweight construction, it ensures maximum runtime, consistent power delivery, and exceptional reliability under demanding conditions.

### Key Features

Lightweight Design	Designed for applications where every gram counts, delivering more power with less weight.
High Power Density	Advanced LiPo technology offers an outstanding energy-to-weight ratio for superior efficiency.
Compact Yet Capable	Space-efficient form factor for seamless integration into compact power systems.
Reliable & Secure Connections	Equipped with AS150 main and JST-XH balance connectors for safe, low-resistance energy transfer.
Built for Endurance	Premium-grade cells ensure durability, cycle after cycle, without compromising performance.

## Technical Specifications

Specifications	Details
Capacity	35000 mAh
Voltage	44.4 V (12S)
Discharge Rate	5C
Configuration	12S1P
Connector Type	AS150 and JST-XH
Dimensions (L×W×H)	190mm x 87mm x 132mm
Weight	5Kg

## About axldrone

axldrone is a leader in innovative drone solutions, offering purpose-built drones, powerful components, and ground control software. With over a decade of R&D and global project execution experience, we provide end-to-end drone solutions for professional and industrial uses.
